

I have been a subscriber of XM for almost 2 years and really appreciate their new traffic and weather service.

I am a listener to my local stations during most of my commute, but find that they have widely spaced traffic and weather reports and even then they sometimes don't cover the area I want to know about.

I see no conflict with XM having this information on a SUBSCRIBER PAID service.

I am paying for this service and feel that the NAB has no right censoring what I wish to PAY for!
